**DETAILED ACTION**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 27-29 are cancelled.

***Specification***

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

***Allowable Subject Matter***

Claims 1-21 and 23-26 are allowable.

The following is an examiner's statement of reasons for allowance: Claim 1 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed signal conversion comprising "an aggregator that aggregates the output samples and provides an aggregated output stream signal at a desired output sample rate, which is different from an input sample rate" structurally and functionally interconnected with other limitations in the manner as cited in claims 2-14.

Claim 15 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly show or suggest the

Art Unit: 2819

claimed conversion comprising “an aggregator that aggregates the output samples and provides an aggregated output stream of digital data” structurally and functionally interconnected with other limitations in the manner as cited in the claim and dependent claims 16-21.

Claim 23 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed signal conversion comprising “mean for an aggregating output samples provided by the means for storing and for providing an aggregated output data stream at a desired output sample rate” structurally and functionally interconnected with other limitations in the manner as cited in claims 24-26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

### **Cited References**

The prior art made of record and not replied upon considered pertinent to application's disclosures. The cited references relate to signal conversion subject matter.
